

## I Like To Move

From: Choosy Nation CD

(I like to move, move  
I like to move my body) (x8)

I like to move because I,  
I like living healthy  
And Choosy's going to help me  
And so he tells me

Move it fast, move it slow  
Move it high and move it low  
You can move it with your feet  
You can move it to the beat

I want to say it loud (loud)  
And make my family proud (proud)  
So let me show you how (how)  
I've got this thing down

(I like to move, move  
I like to move my body) (x4)

C'mon spread the love  
Hold your "C's" high above  
If you just can't get enough  
Of the Choosy Kids Club

You can move it with your arms  
You can move it with your legs  
You can move it with your hands  
And you can move it with your head

I want to say it loud (loud)  
And make my family proud (proud)  
So let me show you how (how)  
I've got this thing down

(I like to move, move  
I like to move my body) (x4)

I like to move  
(Come on spread the love  
I've got this thing down)  
I like to move

I like to move, move  
I like to move my body  
I like to move, move  
I like to move my move my move my  
body
